## MESSAGE

Your soldiers manning the convoy to Drin Hospital on 19 Jul 93 were invaluable in coping with a very unpleasant and difficult situation. To a man they helped to clean, tidy and organize an institution that was filthy. The sights were horrific, the smell appalling, it was a dirty, unpleasant and sickening task.

Thank you for all the help they gave; the way they conducted themselves was professional, sensitive and controlled. They were excellent and mastered a very unpleasant situation, making the lives of the patients tolerable once again.
